Y _____ N _____ Please Specify: _____

Does your pet have any grooming triggers/fears?: _____

Is there anything else we need to know? _____

Grooming may expose pre-existing health conditions. Purrdy Paws will NOT be held liable for any pre-existing conditions that may arise and/or be aggravated during your pet's groom, nor for any allergic reaction resulting from the manufacturer recommended usage of any products. Please inform your groomer of any allergies prior to grooming to avoid potential irritation.

If your pet's coat is matted, a shave down may be necessary at additional cost to the base grooming price. Your groomer will inspect your pet's coat upon arrival and discuss matting severity and charges with you. Repetitive matting problems will be subject to increased charges each appointment. Purrdy Paws will NOT be held liable for irritation/redness/minor scratches or nicks resulting from the removal of matted or neglected coats.

Purrdy Paws Pet Grooming Spa reserves the right to refuse service to customers whose pet(s) may pose a threat to our employees or who are deemed not fit to be groomed. This includes behavioural and/or health concerns and senior pets. Your pet's safety is our number one priority; we will never push your pet past their comfort point. Purrdy Paws will NOT be held liable for stressful effects grooming may have on your pet.

Purrdy Paws does not groom any pets under the influence of a prescribed situational sedative (this does not include pets that are on daily micro doses prescribed by their veterinarian for pain/anxiety etc). If your pet is on any medication please notify one of our team members.

Purrdy Paws Pet Grooming Spa will inform you immediately of any incident that occurs, or any condition that we notice, during your pet's groom. Purrdy Paws reserves the right to stop the grooming process at any time if deemed necessary for your pet's health and safety.

If fleas are found on your pet during the grooming process, a flea bath will be automatically administered (at additional cost to the base grooming price) and service may be stopped. The treatment will kill the current fleas on your pet, however it is not a preventative. A vet visit will be required, and your pet must be cleared of fleas with proof from your veterinarian before service can continue at Purrdy Paws.
